## The Granite Portal:

The portal shows you information about all of your students such as current schedules, Grades, Attendance, Graduation Requirements, Test scores, fees, lunch balance and more. It also gives you some basic information about the schools your students attend. It also is gateway to other applications such as Pay Pams, Grade book, and your students schools Web Stores. The portal is designed to be a single location for you to get to all the information you may need. You will be prompted for your username and password the first time you access Pay Pams or the Web Store through the portal. The password for those applications is then stored in a lockbox for ease of application access in the future.
